

The Heart Center

Join The Heart Center in the Fight
against Cardiac and Vascular Diseases
Are You at RISK?

Heart and Vascular Disease are the
number one and third killers in
the US.

These simple
tests may save your life.

Do you

- Experience cramping in your arms, legs
or buttocks after exercising
- Have diabetes
- Have you ever experienced temporary
loss of vision in one eye, slurred speech
or weakness or numbness of an arm or
leg on one side of your body?

Do you

- Have any painful sores or ulcers on
your legs or feet that aren't healing?
- Have blockages in the arteries of your
heart?
- Have elevated cholesterol, history of
smoking, or high blood pressure?

We are offering two
packages for \$150.

Package I

Vascular Screening includes screening for:

- 1 Abdominal Aneurysm** - Ultrasound screening looking for aneurysm (enlargement) of the aorta which could rupture leading to death.
- 2 Carotid Stenosis** - Ultrasound screening of the arteries in your neck looking for blockages that could lead to a stroke.
- 3 Peripheral Arterial Disease** - A quick painless test is done using blood pressure cuffs on the arms and ankles. The ratio can help identify a blockage in arterial blood flow to the legs.
- 4 Blood pressure check** - Cost: \$99.00 payable by cash, check or credit card at time of screenings.

Package II

Heart Score - a screening test to identify Coronary Artery Disease. It detects the amount of calcified plaque in the arteries of the heart that can cause a heart attack. Your Heart Score is a way to assess the risk for a heart attack.

Cost: \$99.00 payable by cash, check or
credit card at time of screenings.
